

# UniverCity Resident Survey

The following are highlights from the UniverCity Resident Survey 2014, conducted on behalf of the SFU Community Trust.

In an attempt to better understand the demographic make-up of UniverCity's resident population and further gather feedback regarding their attitudes, opinions, expectations and needs of their community an online survey was conducted with invitations mailed to all households on a postcard. The survey was first designed in 2007 then updated and repeated in 2010 and 2012, with the survey completed on paper by mail on the first two occasions and online in 2012 and 2014.

#### **Influences and Awareness and of Sustainability Features**

- The strongest influences or reasons for choosing UniverCity continue to include the natural setting, affordability of the development, proximity or access to amenities, and recreational opportunities.
- Other influencing factors of note in 2014 include proximity to work, sustainability features of the development, and the architectural design of the buildings.
- Consistent with 2007, 2010, and 2012 the majority of residents previously resided in other parts of Burnaby (30%), Vancouver (25%) or the Tri Cities area (8%), with most that considered one of these three areas prior to moving to UniverCity.

- When prompted with various sustainability features found within the community more than eight-in-ten residents are aware of at least one, with half or more aware of most features.
- Consistent with 2007, 2010, and 2012 almost all residents continue to say they would recommend UniverCity to friends and family (92%).

#### **Work and Transportation**

- As found in the three previous surveys, the majority of residents is employed for pay (86%), 7% work from home,73% outside the home and 6% say they do both. Of those who work outside the home, most travel the short distance to SFU (30%), other parts of Burnaby (16%) or to Vancouver (35%).
- While the most common mode of transportation for commuters continues to be by private vehicle, the proportion of residents that drives has continued a downward trend from 60% in 2007 to fewer than four-in-ten this year (39%).
- Use of public transit is consistent with that reported in 2012, currently used by 28%; the proportion of those who walk to work is consistent with a year ago and trending upwards since 2007, now also at 28%.

- While approximately nine-in-ten residents have at one time or another used public transit, just over one-third uses it at least once a week or more, however the majority of those that use it do so just a few times a month or less often (51%).
- Fewer than one-in-five residents has at some time made use of the car co-op service; of those that have, most use it just a few times a year or less often.

#### **Demographics**

- The majority of households at UniverCity have two adults (65%) or a single adult (19%). While half of all homes are without children, the proportion with children has increased steadily from 20% in 2007 to 50% currently.
- More than three-quarters of residents at UniverCity currently own their property (78%), and for more than half of them it was their first purchase (54%).
- While in 2012 the majority of homeowners at UniverCity had downsized, this year is more divided between those that have downsized (42%), those that have bought a larger property (37%), and the remaining 21% that moved to a similar sized unit.
- While just over half of all residents are currently satisfied with the size of their home, more than one-in-ten is considering a move outside of the community (13%), and 16% is considering a move within UniverCity.

- On average, the ideal home size would be 1,633 square feet or 3 bedrooms, with 62% that report being prepared to pay \$500,000 or more for their desired home.
- Half of all households are currently dissatisfied with the amount of storage space they have and would like more.
- Requirements among those interested in more space vary, with one quarter interested in a smaller space (5x5), approximately four-in-ten interested in a midsize space (5x10), and one-in-five interested in a larger space (6x16). However, in each case only a minority is willing to pay the average monthly rental cost of such storage.
- Consistent with the proportion reported in 2012, more than four-in-ten households have someone associated with Simon Fraser University, including faculty, students or staff.
- The majority of households have just one car (58%) and one parking space (76%).
   Amongst those with an additional vehicle most use street parking (62%) or rent additional spaces (46%).

# Methodology

- Following an initial survey in 2007 and follow-up surveys in 2010 and 2012, the SFU
  Community Trust commissioned market research in 2014 to track the demographic
  make-up of UniverCity's resident population and further gather feedback regarding
  their attitudes, opinions, expectations and needs of their community.
- For the purposes of tracking some of the questions used in the self-completion mail-back survey, designed in 2007 in conjunction with the Trust, and used again in 2010 and 2012, were retained for the 2014 survey. As in 2012 the survey in 2012 was administered using an online methodology.
- A postcard invitation was mailed out November 14<sup>th</sup> 2014 to all UniverCity residences from lists made available by the Trust. Included on the postcard was a survey link that respondents could use to access the survey. They were asked to respond by December 7<sup>th</sup>. In addition to the postcard invitation emails were sent out by the Trust to households for whom they held email addresses, and finally phone calls were made to households for whom a publicly listed telephone number was available.
- As an incentive, all those completing a survey were offered the opportunity to enter a
  prize draw with the chance to win a \$250 gift certificate for Nesters market.

# Methodology

 In total 208 residents completed a survey from a total of 1,625 households that were invited. The margin of error on this finite sample size is +/- 6% at the 95% confidence level.

The following notations have been used in this report to signify changes over time:

▲ Significantly higher

Directionally higher

**▼** Significantly lower

▼ Directionally lower

Significance is tested at the 95% confidence level. Directionally higher/lower is not yet statistically significant at the 95% confidence level, but suggests a possible emerging trend of interest.

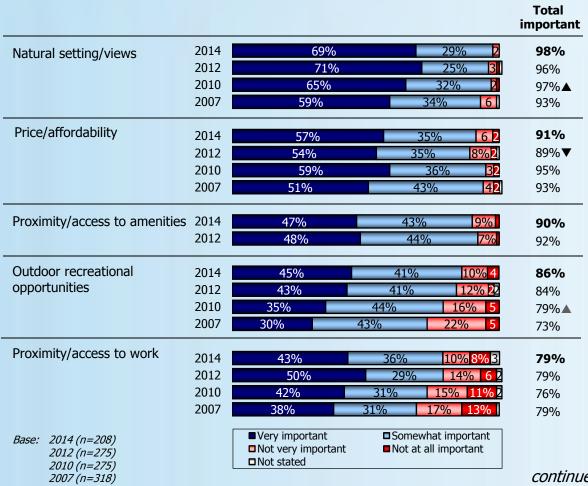

# **Key Findings**

#### Factors Influencing Decision to Live at UniverCity

- When prompted, the strongest influences when choosing to live at UniverCity continue to include the natural setting, affordability of the development, proximity or access to amenities, and recreational opportunities.
- In 2014, proximity to work, sustainability features and architectural design remain important for more than threequarters of residents.

- At approximately six-in-ten, the proportion that rates proximity to SFU as important is consistent with previous years.
- The importance of the community as an investment opportunity appears to stabilize this year following a downward trend since 2007.
- As found in previous years the homebuilder or developer is rated lowest in terms of importance.

- The location and natural setting of the UniverCity development continue to be the most common appeal of life there.
- Encouragingly, those mentioning the sense of community continues to trend upward, increasing significantly in 2014; while mentions of access to amenities is unchanged this year, those mentioning the uniqueness of the sustainable development decreases to levels more similar to 2007 and 2010.
- Also seeing a decrease this year is the proportion mentioning the proximity to SFU.
- Mentions of the elementary school and daycare are unchanged this year as is the sense of safety in the community.
- Also seeing no change this year is the proportion of those mentioning affordability as an attribute of the community.

- This year sees no significant change in dissatisfaction with retail services, and the lack of a liquor store, mentioned by fewer than one-in-five in 2014.
- Unchanged since 2012, just over onein-ten mention issues they have had with other residents, while about onein-ten also raise concerns about increased student rentals and disappointment with sustainability features.
- Decreasing directionally this year, fewer than one-in-ten residents highlight the secluded nature of the community as a dislike, while down significantly are those mentioning a lack of a sense of community, concerns about a lack of green space and concerns about the local roads.

| Other   | <1                 | -                  | -                  |  |  |  |  |
| Not stated  | -                  | 6                  | 11                 |  |  |  |  |
| Q.A5ii) And where did you consider moving to before moving to UniverCity? |                    |                    |                    |  |  |  |  |

- Also consistent with the measures taken in 2010 and 2012, the large majority of residents considered living in either Burnaby or Vancouver before settling on UniverCity.
- This year almost one-third had considered the Tri-Cities, with fewer than one-in-five considering either the North Shore or New Westminster.

#### Awareness of Sustainability Features or Initiatives

Base: 2014 (n=192) 2012 (n=273)

Q.A10) Before today which of the following sustainability features or initiatives at UniverCity were you aware of?

- When prompted with various sustainability features found within the community, more than eight-inten residents are aware of at least one feature, with about half or more aware of most features.
- The most commonly known feature is the Living Building Childcare Centre, followed by the MODO Car Co-op.
- About half of all residents is aware of the Stormwater Management System, with a similar proportion aware of the Green Building Bylaw.
- Least commonly known remains the Burnaby Mountain District Energy System.

#### **Would Recommend Life at UniverCity**

Base: 2014 (n=191) 2012 (n=273) 2010 (n=275) 2007 (n=318)

Q.A6a) Would you recommend UniverCity to friends or family?

 Consistent with previous measures, the large majority of residents continue to say they would recommend UniverCity to friends and family.

| Access to transit  | 5  |
| It's clean   | 1  |
| No reason provided   | 15   |
| Q.A12) Why is that?  |  |

- In 2014 survey participants that stated they would recommend UniverCity to others were further asked their reasons why.
- Among the large majority that would recommend the community to others the most common reason stated is the sense of community felt there, that it is friendly and good for families
- Other positive aspects that are highlighted include the natural, quiet setting, the views and beautiful surroundings, as well as a sense of safety.
- For others the appeal lies in the location, the access to work and other parts of the Lower Mainland in general. It is seen as a unique, sustainable development that is also a good investment opportunity.
- Also appreciated are the amenities and services such as Nesters Market, daycare and elementary school.

### Reasons NOT to Recommend Life at UniverCity

| Problems with other residents                                 | 2                 | 4                             |
| Too much traffic/ dangerous drivers/ speeding                 | 1                 | -                             |
| Too crowded/over-developed/units are too close together       | 1                 | 3                             |
| Lack of larger home sizes/need more space for family          | 1                 | 2                             |
| Miscellaneous   | -                 | 1                             |
| No reason provided  | 5                 | 3                             |
| Q.A12) Why not?   |                   |                               |

- Among the few that would not recommend UniverCity no single reason stands out, with comments varying between being "too secluded" to being "too crowded".
- Other things that put off the residents include a lack of amenities, disappointment with sustainability features, problems encountered with other residents, and a lack of larger sized units.

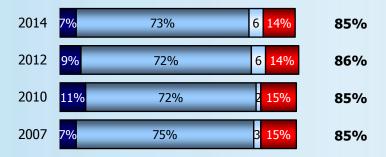

# **Section B**

#### **Employment Status**

#### **Total employed**

Base: 2014 (n=191) 2012 (n=273) 2010 (n=275) 2007 (n=318)

Q.B6) Are you employed or working for pay?

- Proportionally unchanged compared with 2007, 2010 and 2012, the majority of residents are currently employed for pay.
- Most work outside the home, with 7% that works from home, and 6% that do both.

#### **Work Location**

Q.B7) Where do you work?

Q.B7) If other adults or grown children in your household work outside the home, where do they work?

\* Not asked in 2007

- Amongst those who commute to their place of work the majority, more than three-quarters, travels to either Burnaby or Vancouver.
- In 2014 survey participants were asked to differentiate between those working at SFU and those working in other parts of Burnaby. Among respondents the majority travel the short distance to SFU, while other adults divide evenly between the two.
- The proportion of those commuting to other parts of the Lower Mainland shows some directional decrease over time since 2007.
- Among other adults in the household that commute, proportions generally reflect those of the respondents themselves, with an increase this year of those commuting further afield.

### Mode of Transportation to Work

Q.B8) What is your usual mode of transportation to work?

Q.B5) What is their usual mode of transportation to work?

\* Not asked in 2007

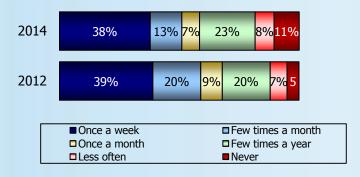

- The most common mode of transportation for commuters continues to be by private vehicle with the proportion of residents that drives consistent with the level reported in 2012.
- Also consistent with 2012 is reported use of public transit, currently at 28%, as well as the proportion of those who walk to work, also 28%.

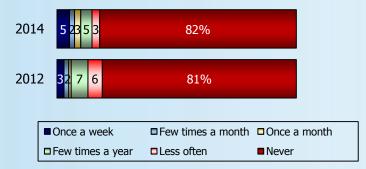

#### **Use of Transportation Alternatives**

#### **Public Transportation**

#### Car Co-op / Car Share

Base: 2014 (n=190) 2012 (n=273)

- As in 2012 the large majority of participants have at one time or another used public transit, with just over one-third uses it at least once a week or more.
- However, the majority of those that use it do so a few times a month or less often (51%).
- Consistent with 2012, one-in-five residents in 2014 has at one time or another made use of the car coop service; however users in 2014 make use of it more frequently than those in the past, with the majority using it once a month or more.

| Q.C1) How many people including | yourself live in   | your househ        | old?               |                    |

- Households at UniverCity are most likely to have two adults (making up two-thirds of homes) or a single adult (almost one-in-five).
- While half of all homes are without children, the proportion with children has increased steadily from 20% in 2007 to 50% currently.
- Those with children tend to be smaller family units with just one or two children.
- The average household size is now approximately 2.7 people.

#### **Current Home Tenure**

Base: 2014 (n=189) 2012 (n=273) 2010 (n=275) 2007 (n=318)

Q.C4a) Do you own or rent your suite?

 Consistent with previous years, approximately threequarters of UniverCity residents own the property they currently occupy.

#### **First Time Home Purchase**

Base: 2014 Homeowners (n=147) 2012 Homeowners (n=209) 2010 Homeowners (n=205)

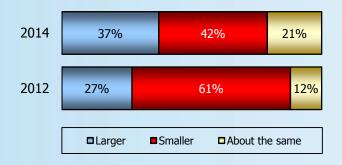

Q.C4b) Is this the first home you have purchased?

 Unchanged since 2010, for more than half of UniverCity residents that own their property this is the first property they have purchased.

#### Size of Residence Compared with Previous Home

Base: 2014 Total have owned before (n=67) 2012 Total have owned before (n=97)

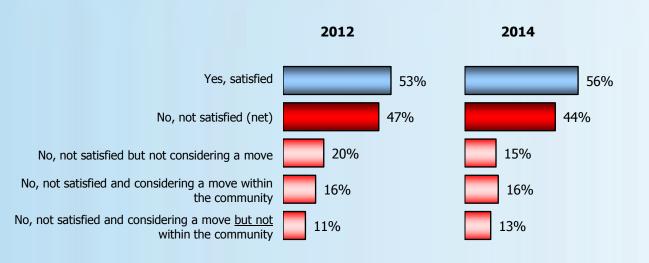

Q.C4c) Is your current home smaller, larger or about the same size as your previous home?

 Among current homeowners more than one-third have scaled up from their previous home, compared with 42% that have scaled down and 21% that moved from a similar sized property.

#### Satisfaction with Size of Current Suite

Base: 2014 (n=189) 2012 (n=273)

Q.C5a) Are you satisfied with the size of your current residence?

- More than half of all residents are currently satisfied with the size of their home, compared with 44% dissatisfied.
- About one-in-ten is considering a move outside of the community, with 16% considering a move within UniverCity, and 15% not satisfied but not yet considering a move.

#### Reason for Moving Out of the Community

| * Interpret with caution: small base size                               |                     |                                       |

- Among those considering a move outside of UniverCity the most common reason is the need for more space for a growing family, and the desire for personal outdoor space.
- This is followed by almost one-third that feels somewhat isolated in the mountaintop community, while 17% finds it too crowded, mostly due to the way the units are spaced.
- A little more than one-in-ten cites the lack of amenities as a reason for considering a move out of the community (13%).

#### Ideal Home Size - Square Footage

- Among those considering a change, either within or outside the community, the average ideal home size is 1,633 square feet.
- Approximately one-quarter are interested in a home 2,000 square feet or larger.

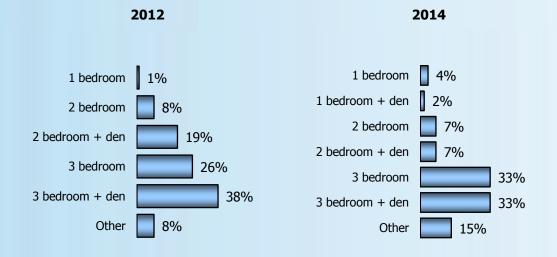

Base: 2014 Total those considering a change (n=55) 2012 Total those considering a change (n=74)

Q.C6a) What would be your ideal home size? Square Footage

#### Ideal Home Size - Number of Bedrooms

 And among those looking to move, the majority, about two-thirds would like at least three bedrooms (66%).

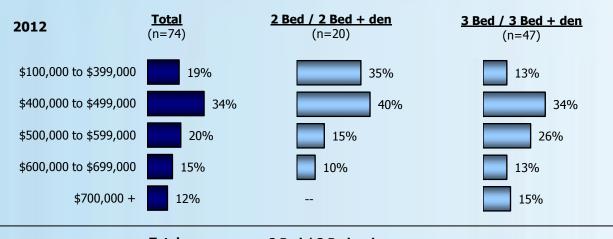

Base: 2014 Total those considering a change (n=55) 2012 Total those considering a change (n=74)

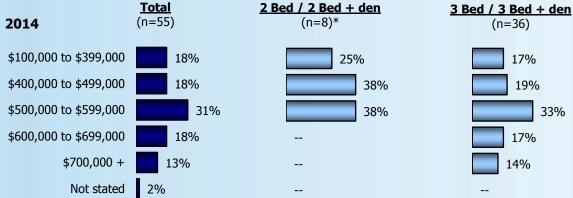

Q.C6b) What would be your ideal home size? Number of Bedrooms

#### Price Range Willing to Pay

- In 2014, the majority of those looking to move to a larger residence would now be willing to pay \$500,000 or more (62%).
- This is largely driven by those looking for a three bedroom residence or larger (64% willing to pay \$500,000 or more).
- Among the few reportedly looking for a two bedroom residence just over onethird is prepared to pay \$500,000 or more (38%).

Q.C6c) And what price would you be willing to pay?

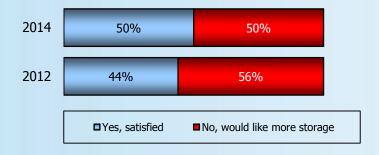

Base: 2014 Total those considering a change (n=55) 2012 Total those considering a change (n=74)

<sup>\*</sup> Interpret with caution: small base size

### Satisfaction with Current Storage Space

Base: 2014 (n=188) 2012 (n=273)

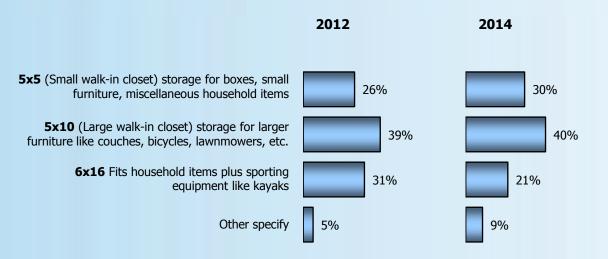

Q.9b) Are you satisfied with the amount of storage you currently have?

 Among those answering, half are currently satisfied with the amount of storage space they have, while half are not and would like more.

#### **Current Storage Needs**

 Requirements among those interested in more space vary, with almost onethird interested in the small walk-in closet sized space (5x5), four-in-ten interested in the large walk-in closet sized space and approximately one-infive interested in a larger space (6x16).

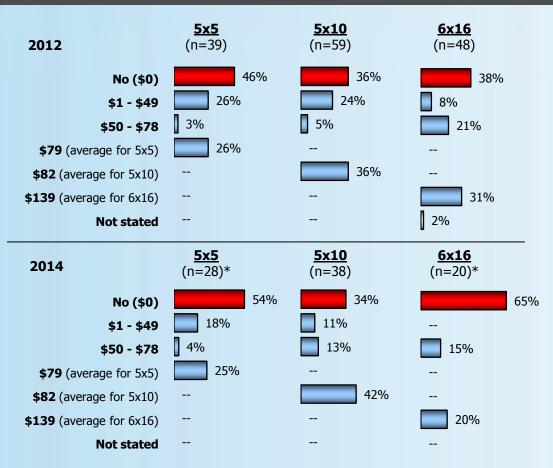

Base: 2014 Total would like more storage (n=94) 2012 Total would like more storage (n=153)

Q.9b) Which of the following is closest to your estimated storage needs:

## Willingness to Pay for Storage Needs

- Among those interested in the small space in 2014, more than half say they would not pay for it; one-in-five would pay up to \$50, while one-quarter would pay the average of \$79.
- Among those interested in the mid-size space about one-third would not pay for it; one-quarter would pay no more than \$78, while 42% would pay the average of \$82.
- And among those interested in the larger space two-thirds would not pay for it; 15% say they would pay no more that \$78, while one-in-five would pay the average of \$139.

Base: 2014 Total would like more storage (n=94) 2012 Total would like more storage (n=153)

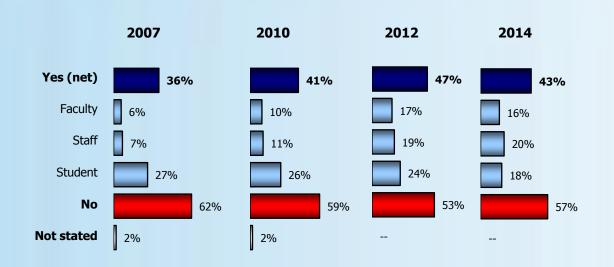

<sup>\*</sup> Interpret with caution: small base sizes

Q.9c) The typical rental storage cost in the region for that size of storage is [\$79/\$82/\$139] per month. Would you be willing to pay that associated cost to get the storage you need?

### Incidence of Household Associated with SFU

- In 2014 more than four-in-ten households report having someone associated with Simon Fraser University.
- This year representation is quite evenly distributed between faculty, staff and students and generally consistent with 2012.

Base: 2014 (n=187) 2012 (n=273) 2010 (n=275) 2007 (n=318)

Q.C5) Are you or someone in your household associated with SFU?

## Number of Cars and Parking Spaces

Q.C10) Which language or languages are most commonly spoken in your household?

- In the surveys completed in 2007 and 2010 residents were asked of their ethnic backgrounds. In 2012 and 2014 the question was changed to enquire which were the main languages spoken at home.
- While the previous question identified a rich and diverse community in terms of ancestry, the new question provides insight into the dominant languages spoken within the community and provides some guidance in terms of the most effective languages used when communicating with the community
- Currently more than eight-in-ten households speak English, with about one-in-ten that speaks Chinese; French and Spanish are the next most common languages spoken.
- It should be noted however that the survey was provided in English and Chinese but no other languages.

Q.C14) How long have you lived at UniverCity?

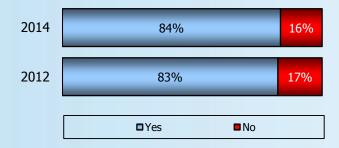

\*Answer options in 2007 and 2010 only went up to "More than 3 years" and did not break out any further

- In 2014 more than one-in-ten residents in the survey say they have lived in the UniverCity community for less than a year, compared with fewer than one-inten in 2012.
- Almost half of those households in the survey have lived in the community for four or more years, with more than one-third living there for five or more years (38%).

## Future Plans

Base: Total 2014 (n=185) Total 2012 (n=273)

Q.C12a) Are you planning to stay in the community for the foreseeable future?

 The large majority of residents is planning to stay in the community for the foreseeable future.

| Q.C12b) Why is that?  |                            |                   |

- Among those not planning to remain in the community almost half expresses a desire for a larger residence for growing families.
- Approximately one-quarter cites personal reasons for their intention to move, such as for a job or to be closer to family.
- For others the reasons are quite varied and include those who feel a lack of a sense of community, a feeling of isolation in the mountaintop community, and a lack of services.
- For some their commute is proving too much while others feel there are not enough transit options.
- For about one-in-ten the on-going construction and continued development has had an impact.

# Questionnaire

Welcome to the UniverCity Resident Survey. The information from this survey will provide valuable direction for the planning of services and amenities, improving the quality of life for UniverCity residents. Please be assured that all responses are confidential and results will be reported in aggregate form only.
